

Dear Commissioner Friedman,

*Stop all the inhu-
man practices. There
are lives being made
of these people.*

It is good to hear that the FDA is finally going to restrict the feeding of dead cows to live cows. It is unconscionable, however, that your new policy *fails* to take into account the dangers posed by feeding dead and diseased pigs, horses, and chickens to cows and other farm animals. *How many Americans will have to die from Mad Cow Disease (BSE) before the FDA stops this deplorable and deadly practice?*

I join with the Humane Farming Association in calling for an immediate nationwide ban on the use of dead animals in livestock feed.
